

Thule Step Slide Out Manual

Prod.nr. 20 2340 00
SDA913-05

- Fix the step. Fig. 5.

REMARK: If the underground on which the step is installed is made of soft material, use an intermediate plate (A) and/or tubes (B) to fill out. See fig. 6.

OPERATION

OPEN

- Unlock the footboard by tilting up the lock profile under the footboard. Fig 6.
- Pull at the footboard till the back lock has hooked in.
- **Remark:** For your safety, never mount on the step when the footboard is not locked.

CLOSE

- Lift up the footboard to unlock it.
- Push the footboard till the front lock has hooked in.
- Check if the step is retracted and locked before departure.
